REFERENCE LIST

The following reference list is provided as a resource that may be useful in developing a new program proposal. Though not a complete listing of what may be in the literature, it provides background and support for the DCLS and advanced practitioner concept.

Association of Specialized and Professional Accreditors, Scroll down to the position paper on Professional Doctorates: http://www.aspa-usa.org/content/position-papers

Frohman E. Clinical Doctorate in Laboratory Science. Clinical Laboratory Science Vol. 18, No. 4, 198.

Fydryszewski, NA. "DCLS - It Is A Reality!" ASCLS Today, October, 2012

Laboratory Medicine Best Practices. https://www.futurelabmedicine.org/about/.

Laposata M. Patient-specific narrative interpretations of complex clinical laboratory evaluations: who is competent to provide them? Clinical Chemistry 2004; 50; 471-472.

Nadder TS. Results from an interest survey on the professional doctorate degree in CLS. ASCLS Today 2011;XXV(4):13-14.

Rice S. Most laboratory errors happen outside the lab ESRI Report Finds. Modern Healthcare, April 17, 2014.
